OBJECTIVE

Computer science major at Kean University looking to build up credibility and skills in the computer programming field. Have skills in Java and Python with a drive to continue to expand what I know to become better.

EDUCATION

Associate's Degree in Applied Science | Union County College   **2019-2021**

Courses included coding with python, Linux, and coding with java. Finished with a 3.6 GPA.

Bachelor's Degree in Computer Science | Kean University   **2022-Present**

Courses included Data Structures, Algorithms, Computer Architecture, Operating Systems, and Software Engineering

EXPERIENCE

Marine Corp, Fort Dix— Aviation System Technician   **2017-Present**

Marine Corp Reserves. Inspect, test, maintain, and repair airborne weapon replaceable assemblies, and shop replaceable assemblies to complete aircraft electronic countermeasures systems. Fix aircraft radars, night vision goggles, radios, pilot grips and landing lights through schematics and publications. Lead new marines and learn from older marines about job related tasks.

Target, Clark, NJ — Seasonal Assets Protection Specialist   **2019-2020**

Camera surveillance, scan items for correct count, identify potential theft risks, document cases, and ensure customer safety. Reviewed guidelines and expectations in terms of Target's policy on protecting assets with team members. Communicated with associates to mitigate any risks to assets and physical harm.
